About Us.

Introduction

We are a dynamic mineral processing company dedicated to supporting and empowering artisanal and small-scale miners across Zimbabwe. Our mission is to create mutually beneficial partnerships that uplift local mining communities while enhancing the efficiency and output of small-scale mining operations.

Through strategic sponsorship, we provide artisanal miners and shaft owners with essential equipment and resources, enabling them to extract higher volumes and better-quality ore. Once the ore is recovered, it is transported to our processing plants, where we extract gold with the highest possible efficiency.

Our model ensures fair value-sharing—after processing, our partners receive a percentage of the gold recovered, creating a transparent and sustainable mining ecosystem that benefits all stakeholders involved.

Mission & Vision.

MISSION

To unlock the potential of artisanal and small-scale miners by connecting them to capital, technical expertise, efficient mercury-free processing and trusted markets—building profitable enterprises, protecting people and the environment, and creating shared value for miners, shareholders, communities and Zimbabwe.

VISION

To make Zimbabwe a global model of responsible, inclusive gold production—where artisanal and small-scale miners thrive, mercury-free processing is the norm, and gold creates lasting prosperity for communities and the nation.

CORE VALUES

RESPECT

We are committed to treating our communities, artisanal miners, and the environment with the utmost respect.

TRANSPARENCY

We believe in open communication and clear processes, fostering trust with all stakeholders.

SCALABILITY

We design our initiatives with the potential to grow at least tenfold, with a goal of maximizing our impact across Zimbabwe.

SUSTAINABILITY

Our business prioritizes long-term viability, ensures a thriving future for communities and protects the environment.

SPEED

We deliver our services promptly, understanding the time-sensitive needs of artisanal miners and their micro-businesses.
