

MAGAYA MINING • 2026

Vision & Mission.

We bring industrial capability to local small-scale miners. By connecting miners and claim owners to the resources needed to develop, produce and process gold, we build partnerships designed to create lasting commercial value.

VISION

To make Zimbabwe a global model of responsible, inclusive gold production—where artisanal and small-scale miners thrive, mercury-free processing is the norm, and gold creates lasting prosperity for communities and the nation.

MISSION

To unlock the potential of artisanal and small-scale miners by connecting them to capital, technical expertise, efficient mercury-free processing and trusted markets—building profitable enterprises, protecting people and the environment, and creating shared value for miners, shareholders, communities and Zimbabwe.

CORE VALUES

RESPECT

Treating our communities, artisanal miners and the environment with the utmost respect.

TRANSPARENCY

Open communication and clear processes, fostering trust with all stakeholders.

SCALABILITY

Initiatives designed to grow at least tenfold, maximising our impact across Zimbabwe.

SUSTAINABILITY

Long-term viability that ensures a thriving future for communities and protects the environment.

SPEED

Prompt delivery for the time-sensitive needs of artisanal miners and their micro-businesses.

STRATEGIC GOALS

1 Accessible mercury-free processing
Make mercury-free processing accessible and commercially attractive.

3 Better miner livelihoods
Support better recovery, transparent participation and stronger livelihoods.

5 Protect people, land & water
Safety, training, environmental controls, water management and rehabilitation.

7 Responsible, profitable growth
Grow responsibly and profitably.

2 Formalisation through partnership
Help ASM enterprises become established, capable and legally recognised businesses.

4 Trusted mine-to-market supply chains
Documented, verifiable and lawful supply from source through authorised sale.

6 Shared prosperity
Employment, local procurement, skills, enterprise and community priorities.
